**Top Customer Stories from 2014**

**First GV10 Goes on Air at KVSC**

Alex Hartman, Chief Engineer for KVSC, St. Cloud State University, MN, shows that the GV Series is more than a very attractive upgrade.

*"My GV10 running at 1/2 power with -14dBc injection is achieving 74.8% efficiency. When run into a dummy load at full 9 kW output with -14dBc, that number jumped up to 89%! Not much wasted juice there!"*

### MIX FM's VS300 Going Strong

Hayden Koch, Station Engineer at MIX 93.8 FM, South Africa told us that their

Nautel VS300 with optional Orban Inside™ audio processing has proved to be a compact, all-in-one solution for the station.

*"The exciter audio quality has been excellent... the Nautel AUI has been a great way to control the transmitter and the logs and email alerts have been extremely useful. The VS300 has proved to be a compact, all-in-one solution which has fit the bill nicely."*
