Introducing the New GV Series: 3.5 - 88 kW

Digital, Efficient, Intelligent, Refined

Meet the new GV Series, the culmination of years of Nautel digital/analog transmission innovation. Available in power levels of 3.5 kW to 88 kW Digital/Analog FM.

Our field-proven, high-power FM architecture is mated with the industry's most advanced RF technologies and award-winning AUI control to set a new standard for digital performance, efficiency, serviceability and unmatched functionality.

Major New Capabilities:

- Charts new territory in digital efficiency
- Reduced cost of ownership for IBOC
- New spectrum efficiency optimizer
- Separate controller “back up” user interface
- New site control functionality via AUI
- Low mains operation down to 90V (at 1/3 TPO)
- New dynamic RDS scrolling
- New oscilloscope instrumentation

Nautel@NAB Sneak Peak

Are you heading to NAB? If so, we're looking forward to seeing you at Sunday's [Annual NUG Meeting](#) and our booth C2207.

This year, booth highlights include:

- New GV Series transmitter live demo.
- NVLT, NX and VS transmitter demos.
- NT Digital UHF TV transmitter demo.
- Live demos of HD Radio, DRM, AUI and PhoneHome.
- MPX over AES demo.

Also, don't miss the following two events at our booth:

- **Nautel NAB Kick-Off** on Monday, April 7 at 9:00am
- **On the Road to Digital** on Tuesday, April 8 at 3:00pm with special guest Bob Struble of iBiquity and a chance to help us celebrate our 45th Anniversary!

Tips 'n Tricks for Surviving NAB by Jeff Welton

As a long-time attendee of NAB, Jeff has a few NAB-specific Tips 'n Tricks he'd like to share with you for surviving NAB.

Jeff covers everything from ground transportation and badge pick-up to food, gambling and staying comfortable.
