June 11: Introducción de la Familia de Transmisores de Alta Potencia GV

Acompañe a Gerardo Vargas y a sus invitados sobre la discusión sobre este nuevo producto.

Peter's Fireside Chat - With a Twist

We've hijacked Peter's fireside chat to illustrate how Nautel's philosophy of rolling up our sleeves and doing whatever it takes to serve you and keep you on the air no matter what, starts at the top with our President and CEO, Peter Conlon.

Peter leads by example, at NAB he did everything from booth

Continuous Improvement - News from NUG @ NAB

At the user group session at NAB customers learned more about 'Nautel Continuous Improvement' which at Nautel goes well beyond the expected tweaks to new products coming off the factory floor.

Peter Conlon explained how Nautel not only pursues new innovative products but also tries to bring new capabilities to customers with existing transmitters where it makes sense. This unique approach fits naturally with our philosophy of never ending support on any product we've ever built.

"We will always be looking to see how we can continue to improve your experience"
Peter Conlon, Nautel President and CEO.

Customers expressed that they were excited to hear the investments Nautel has been making:

- A NUG announcement of work on NV Series high-efficiency power supplies planned for a future release.
- The NUG AUI session featured the significant improvements of release 4 firmware for VS, NX, NVIt and NV.
- Jeff Welton's tips 'n tricks featured a live release 4 upgrade performed by Christy White.
- Ongoing development of Nautel's PhoneHome proactive support tool.

GV Series Training - July 15-17

Coming up July 15-17, we're offering a three-day GV Series training course which is designed to provide participants with the information necessary to install, operate, troubleshoot and maintain a GV transmitter.

GV Series training modules include:

- Introduction to GV
- Lightning Protection and Site Preparation
- Installation
- AUI Operations
- Theory of Operations
- Troubleshooting and Maintenance
- Digital Broadcasting

Tips 'n Tricks by Jeff Welton

During the NAB show, Jeff shook thousands of hands and spoke to an equal number of people. Some of these conversations were related to making Nautel equipment do certain things. Jeff shares and expands on these conversations in this article.
