Top Article: Translators by Jeff Welton

Translators are a hot topic. There's "normal" translators, on-channel fill in boosters, translators for providing an analog equivalent of an HD channel and translators for AM rejuvenation, by giving an FM signal to an AM station.

Nautel sponsored an eBook on translators which covered information related to considering, acquiring or building a translator facility. Our knowledgeable Jeff Welton adds his thoughts and considerations in this useful article.

Antenna Hungaria's two-megawatt transmission facility near Solt, Hungary, is getting an upgrade from Nautel. The AM and FM broadcaster will install an NX2000 medium wave system. The project will include large infrastructure changes as well as a new transmitter and is expected to be completed in the fall of 2017.

BUILDING THE BIGGEST

2 Megawatt MW
Antenna Hungaria
Transmitter

The new Nautel system will incorporate five Nautel NX400 transmitters with a combiner. Working with Porion Digital KFT, the companies will interface with the existing medium voltage supply, coordinate building modifications for the new transmitter, and provide required air handling equipment.

Top Customer Story: Tight GV40 HD Install at K-LOVE

Jack Roland, EMF K-LOVE/Air1 Engineer, shared with us some great photos from the delivery of his Nautel GV40 HD transmitter to the K-LOVE Mt. Chief, CO, facility. It was a tight installation; he only had 31" to work with!

"I WAS SO HAPPY! Man it worked, my measurements were all right, there was NO ROOM to spare either side, and we still had to take the door hinges off the GV-40! No, we didn't have to use a shoe horn, but it was CLOSE!"

Top Tips 'n Tricks by Jeff Welton

In this popular column, Jeff's top Tips 'n Tricks article of 2016 was one where he prepares for winter in the northern hemisphere and asked "what do you do to get ready for winter?" He highlighted a 'remote wiring' case that demonstrates the importance of keeping your transmitter clean and cool, and discussed slide rules and broadcast / engineering related apps.
