

Hello Nautel

In this issue: New webinars; NAB recap; Articles on repack and future of HD; Engineering story draw; Tips 'n Tricks; RDS eBook.

Announcing New Webinars

A new webinar series kicks off in May with two fast-paced and informative Tips n Tricks sessions with Jeff Welton and surprise guests. More exciting topics will follow in June.

Tips n Tricks: AM Sites

Wed, May 16, 2018 12:00 PM - 1:00 PM EDT

Maintenance, troubleshooting, lightning protection, grounding and keeping an AM antenna system happy, directional and non-D.

Tips n Tricks: FM Sites

Wed, May 23, 2018 12:00 PM - 1:00 PM EDT

As above but with emphasis on areas that are different from AM sites, as well as cooling/air handling and site security.

More webinars to be announced.

NAB Recap

Nautel's NUG event and booth had exceptional attendance at this year's NAB. We enjoyed networking and sharing our latest innovations.

Nautel, PILOT, Xperi and Beasley won a 2018 Best of Show award from Radio World for their '[Experimental All Digital ON-AIR Testing](#)' using Nautel HD Multiplex.

We were pleased to host our 3-day post-NAB training session with participants from Australia, Thailand, Philippines, Taiwan, China, Papua New Guinea, Guam, United States and Canada.

FM — Repack's Innocent Bystanders

A significant number of FM stations will be impacted by the TV repack. In this article based on his NUG presentation, Gary Liebisch discusses how to know if you are affected, what you can do about it, and the timetable for doing it.

The Future of HD Radio™

Nautel Research Engineer, Philipp Schmid, proposes that one possible, and bright, future path for HD Radio is all-digital operation.

The award-winning 'Experimental All Digital ON-AIR Testing' at the NAB show using Nautel's HD Multiplex technology has started conversation in the industry on what an all-digital transition may look like.

Call for 'Because Radio Matters' Stories

Do you have a great story about how you or a broadcast engineer colleague went beyond the call of duty in the name of listeners 'Because Radio Matters'? We'd love to hear about it!

Every qualifying story will be entered into a monthly draw. Plus the top story will be published in Radio World Magazine and the broadcast engineer invited to present their story at Nautel's premier NUG event at NAB 2019.
