

Hello

**In this issue:** New websites, webinars, user story, Tips 'n Tricks & IBC preview.

## Announcing New Websites

Nautel announces two new websites, making it even easier to find the information you want. [www.nautel.com](http://www.nautel.com) is focused on products while everything to do with Support is at [support.nautel.com](http://support.nautel.com).

Please note, the NUG login URL has changed to [support.nautel.com/login/](http://support.nautel.com/login/) so you will have to enter your password even if the browser previously remembered it for you. Plus, we're gradually back-filling older resources so contact us if you can't find anything that you need urgently.
