

Hello

**In this issue:** a recap of [Nautel@NAB](#) news, unique Power Savings Calculator, NUG@NAB2019 video & presentations, and Jeff's 50 Tips n Tricks.

### NAB Recap

Thank you to everyone who contributed to a very successful NAB! We enjoyed networking and sharing our latest innovations. If you couldn't attend, here are a few highlights...

Nautel won a Future Best of Show Award from Radio World for All Digital AM. Learn more about this technology:

[Webinar: All Digital AM in the Real World](#)

We announced upcoming support for HD Radio™ [MP11 enhanced data modes](#) in all GV Series FM transmitters, bringing an extra 24 kbps for data transmission or for addition of another audio channel to FM stations operating in hybrid digital mode.

We also announced significant enhancements to the [HD MultiCast+ Importer/Exporter](#) including simplified setup of Artist Experience data and an optional capability to add integral Orban audio processing for both HD2 and HD3.

After NAB we were pleased to host our complimentary 3-day training session with participants from Australia, Brazil, Nigeria, Philippines and the U.S.A.
