AUI Update

Your questions please?

(if you don't see the control panel, click on the orange arrow icon to expand it)

Please enter your questions in the text box of the webinar control panel (remember to press send)

The screenshot shows a GoToWebinar control panel window. At the top, there is a menu bar with 'File', 'View', and 'Help'. Below the menu bar, there is a section for 'Audio' settings. An orange arrow icon is circled in red and has a dotted orange line pointing to it. The audio settings include 'Audio Mode' with two radio buttons: 'Use Telephone' and 'Use Mic & Speakers' (which is selected). Below this, there is a 'MUTED' indicator with a microphone icon and a volume level indicator. A link for 'Audio Setup' is also visible. Below the audio settings, there is a 'Questions' section. A text box with the placeholder text '[Enter a question for staff]' is circled in red, and a solid red arrow points to it from the left. A 'Send' button is located at the bottom right of the text box. At the bottom of the window, there is a promotional banner for GoToWebinar with the text 'Start Holding your Own Web Events with GoToWebinar' and 'Webinar ID: 977-124-241'.

Remember: The completion of a Nautel webinar qualifies for $\frac{1}{2}$ SBE re-certification credit, identified under Category I of the Re-certification Schedule for SBE Certifications.

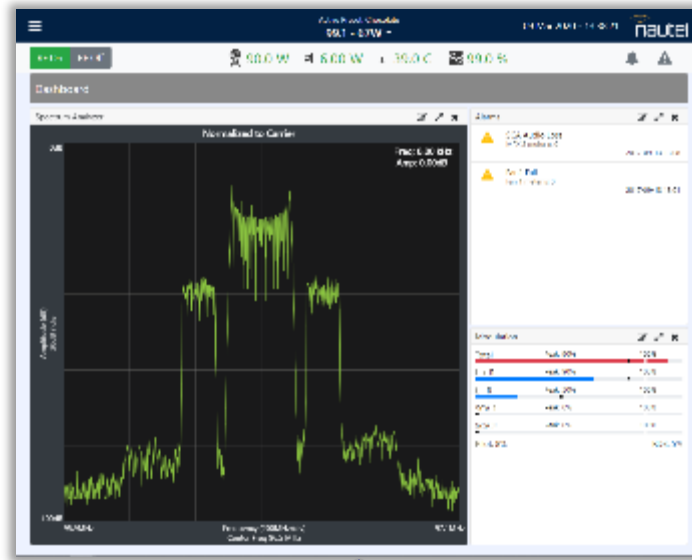

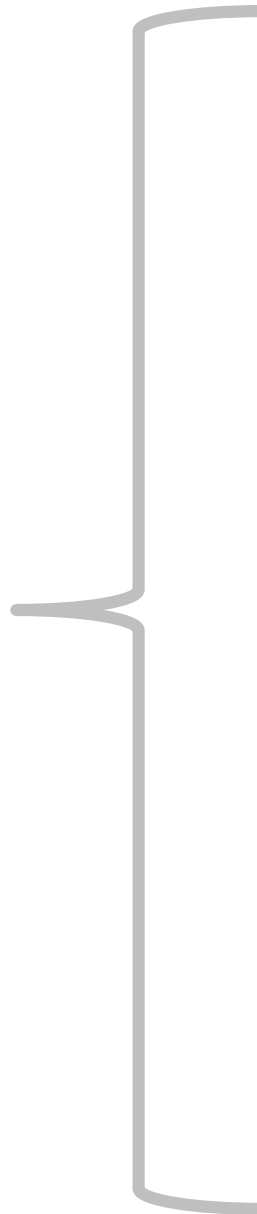

Agenda

- Short discussion with panelists
- Round table discussion with attendees
 - We can unmute for audio, but can also handle typed input
 - We want your thoughts, ideas, comments or questions!
 - What you've done, what you'd like to do, questions on how to do something.

Ideas for things to discuss

- **Where are we going?**
 - HTML5
- **Why is it taking so long???**
 - Old AUI is big, really big
 - There are a lot of pieces under the AUI that also are impacted
- **Why?**
 - Multi-device access
 - Flash end of life
- **What do you need to know?**
 - Put the product guy on the spot!

AUI stack

UI

Data Broker

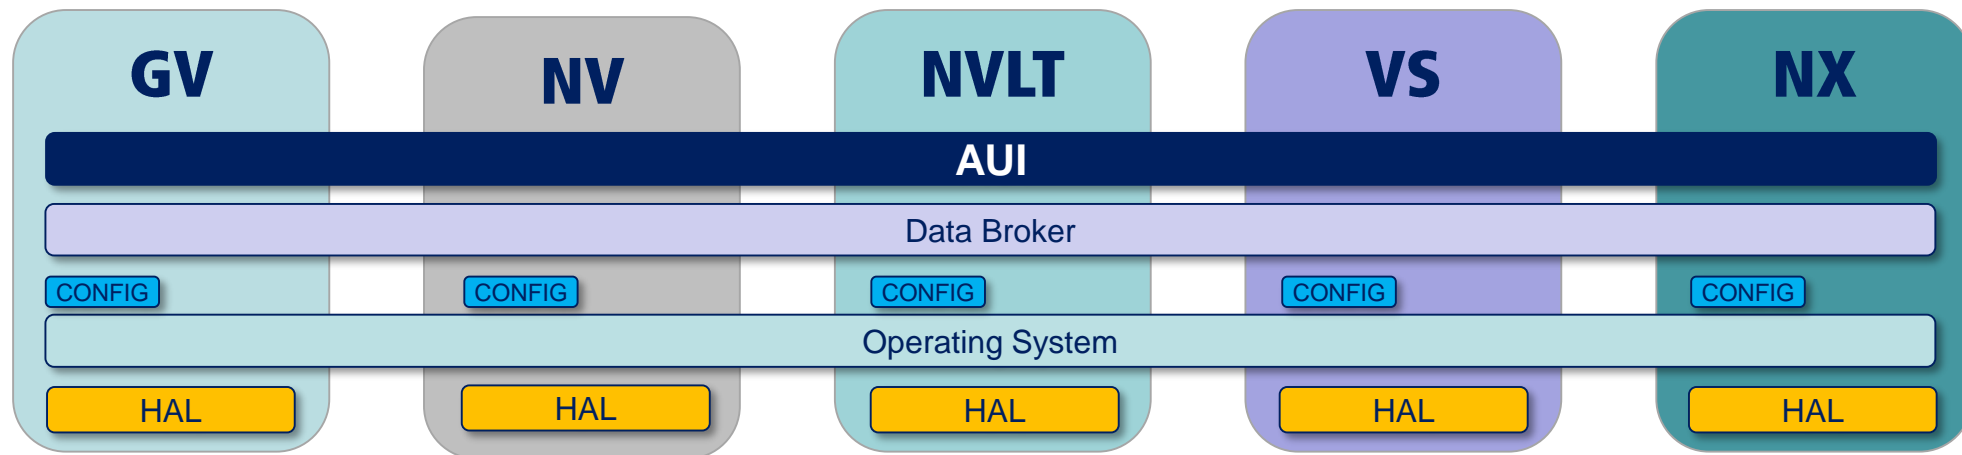

Operating System

Hardware Abstraction Layer

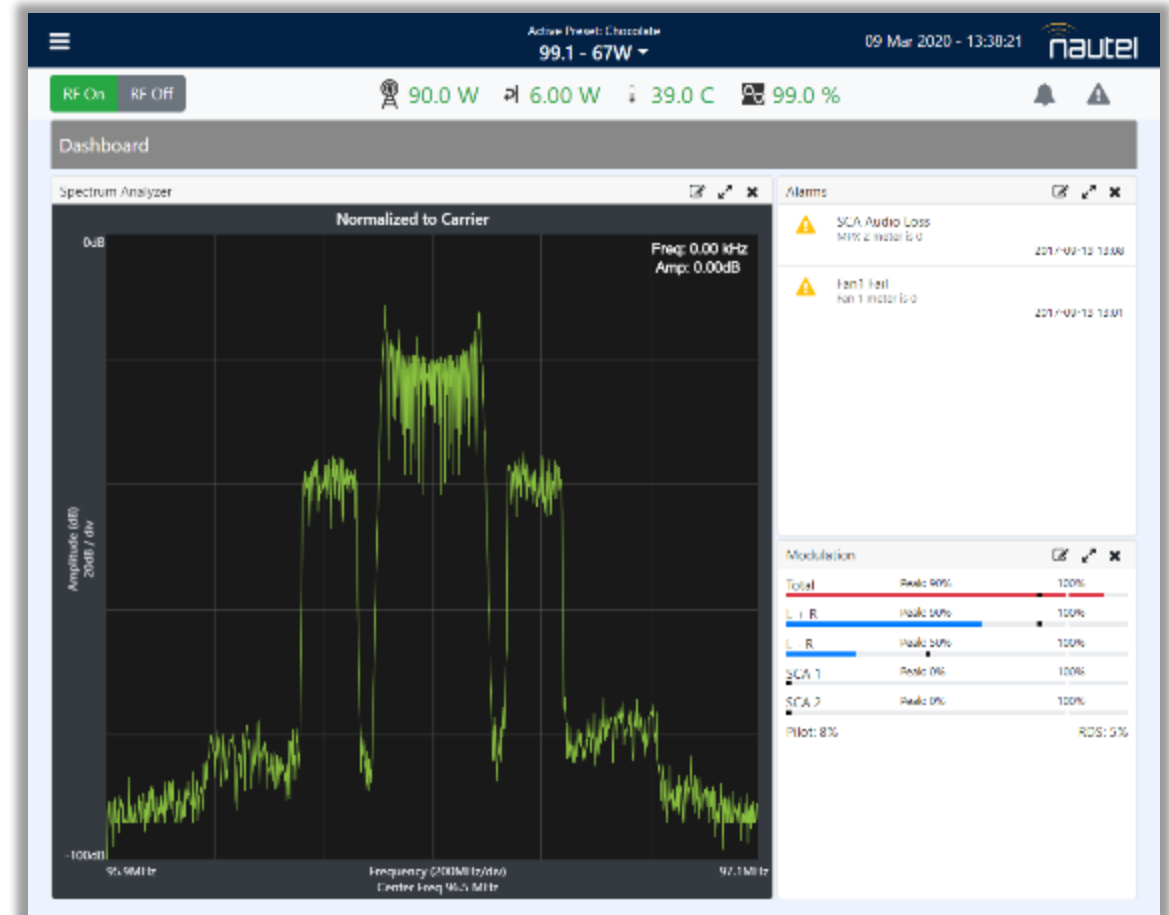

Architecture

- UI, Data Broker, and Operating System
 - Common to all transmitters
- Configuration and Hardware Abstraction Layer (HAL)
 - Series and hardware version-specific

Nautel AUI

- Technology Benefits
 - Robust maintenance
 - Easier, faster updates
 - Modern security
 - AUI longevity
 - Better performance

But What About NOW?

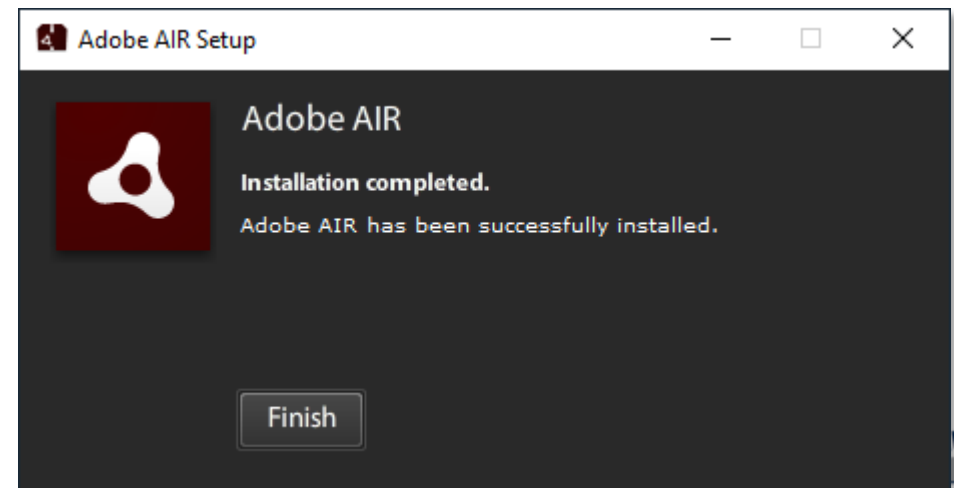

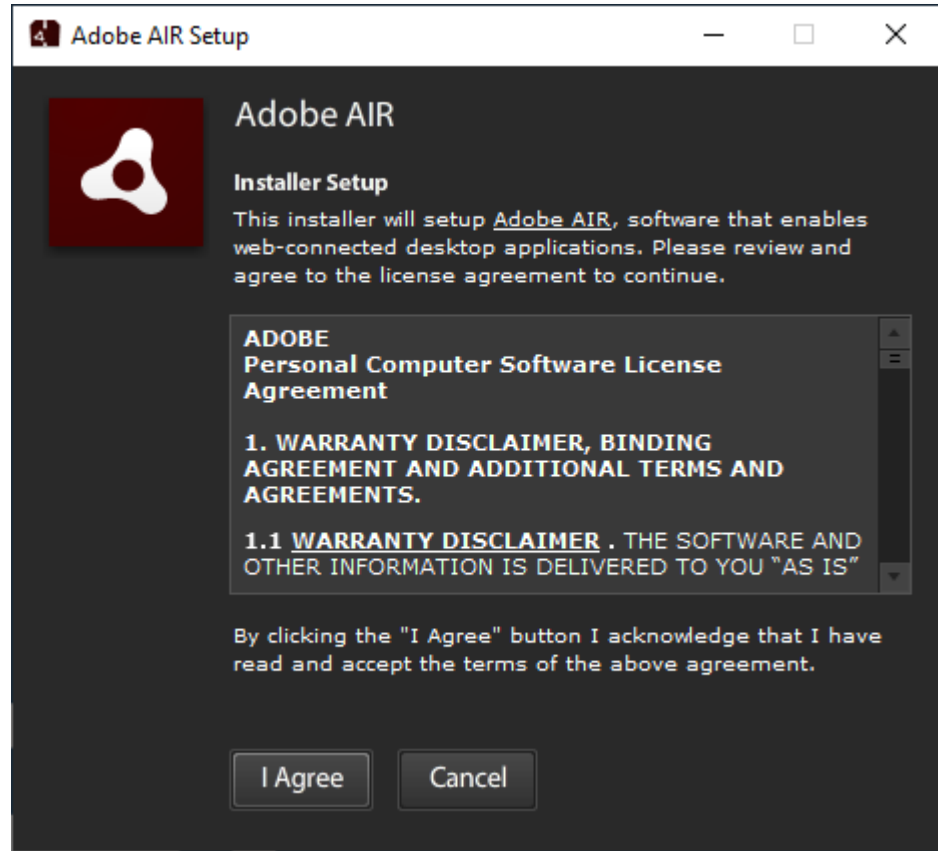

- Challenges
 - End of year EOL for browser-based Flash
 - Access to sites to perform upgrades
- Solution
 - AUI App

Installation Steps

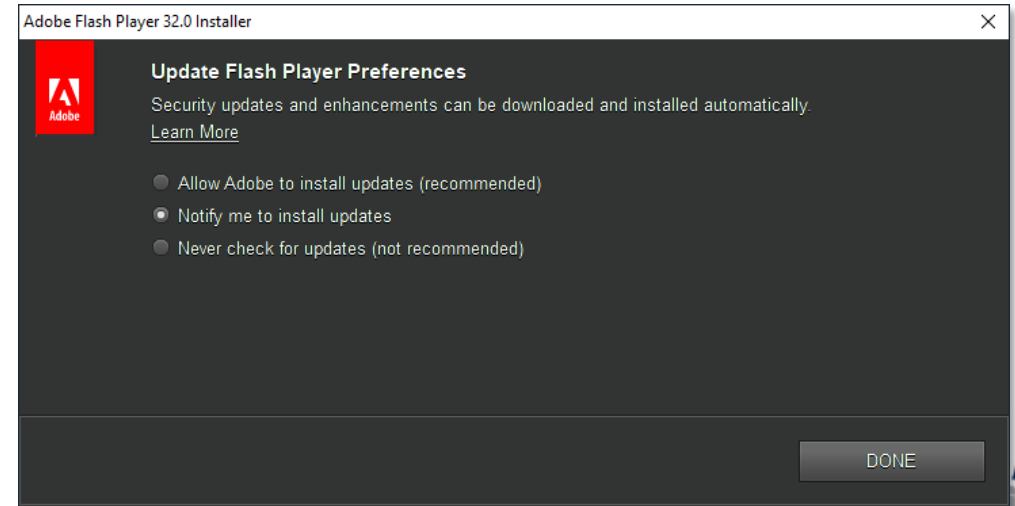

The image displays five overlapping screenshots of the Nautel Legacy AUI Access 1.0b4-20200824 Setup wizard. The windows are arranged from top-left to bottom-right, showing the progression of the installation process.

- Welcome to Nautel Legacy AUI Access 1.0b4-20200824 Setup:** The first window shows a blue background with a white icon of a computer and a hand. The text reads: "Welcome to Nautel Legacy AUI Access 1.0b4-20200824 Setup". Below this, it says: "Setup will guide you through the installation of Nautel Legacy AUI Access 1.0b4-20200824. It is recommended that you restart your computer before starting the installation. Click Next to continue." A "Next >" button is visible at the bottom.
- License Agreement:** The second window displays the license terms. It says: "Please review the license terms before installing Nautel Legacy AUI Access 1.0b4-20200824." Below the text, it says: "Press Page Down to see the rest of the agreement." At the bottom, there are two radio buttons: "I accept the terms of the License Agreement" (which is selected) and "I do not accept the terms of the License Agreement".
- Choose Install Location:** The third window asks the user to "Choose the folder in which to install Nautel Legacy AUI Access 1.0b4-20200824." It provides instructions: "Setup will install Nautel Legacy AUI Access 1.0b4-20200824 in the following folder. To install in a different folder, click Browse and select a different folder." A text box shows the "Destination Folder" as "C:\Program Files (x86)\Nautel Legacy". Below the text box, it indicates "Space required: 31.4 MB" and "Space available: 43.3 GB".
- Installing:** The fourth window shows the progress of the installation. It says: "Please wait while Nautel Legacy AUI Access 1.0b4-20200824 is being installed." A progress bar is shown with a green bar. Below the progress bar, it lists the files being extracted: "Output folder: C:\Program Files (x86)\Nautel Legacy AUI Access", "Extract: AdobeAIRInstaller.exe... 100%", "Extract: flashplayer32_0r0_371_win.exe... 100%", "Extract: NautelV4.air... 100%", and "Execute: 'C:\Program Files (x86)\Nautel Legacy AUI Access\AdobeAIRInstaller.exe'".
- Final Screen:** The fifth window shows the final step of the installation. It has a "Nullsoft Install System v3.06.1" logo at the bottom. At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

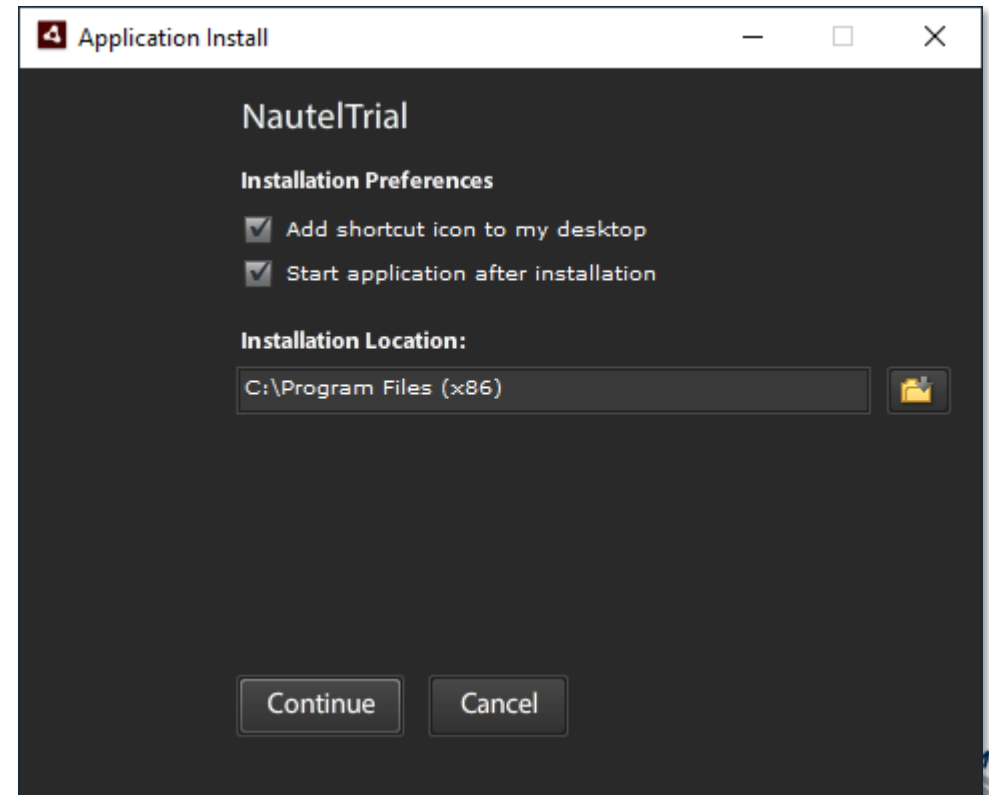

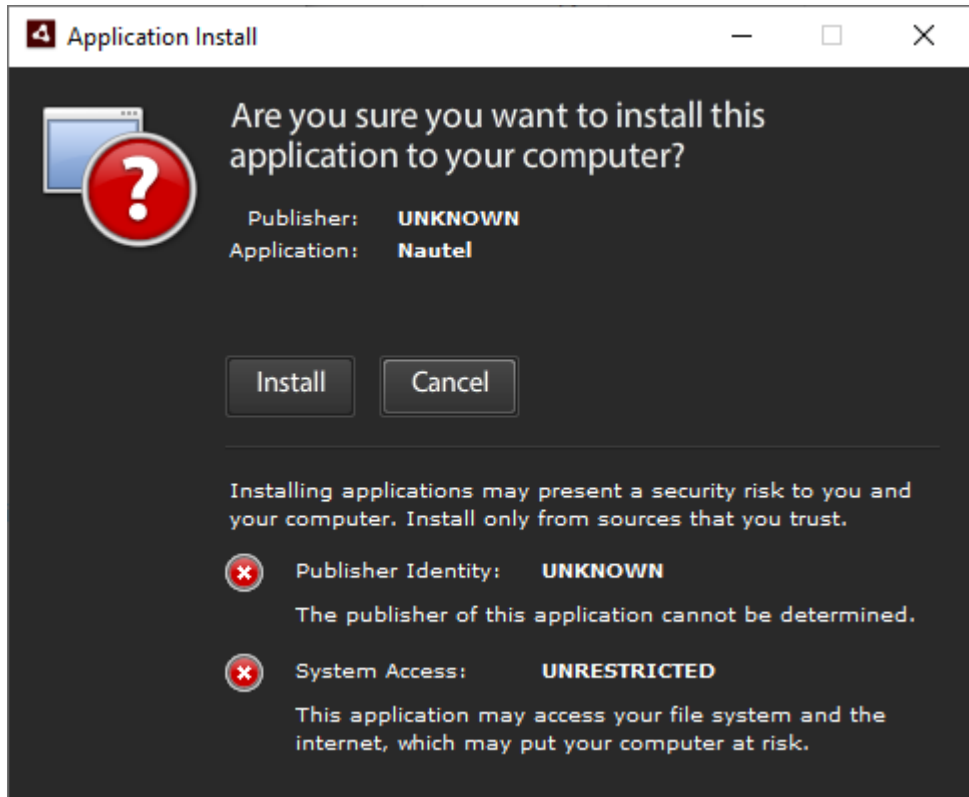

Install Adobe AIR

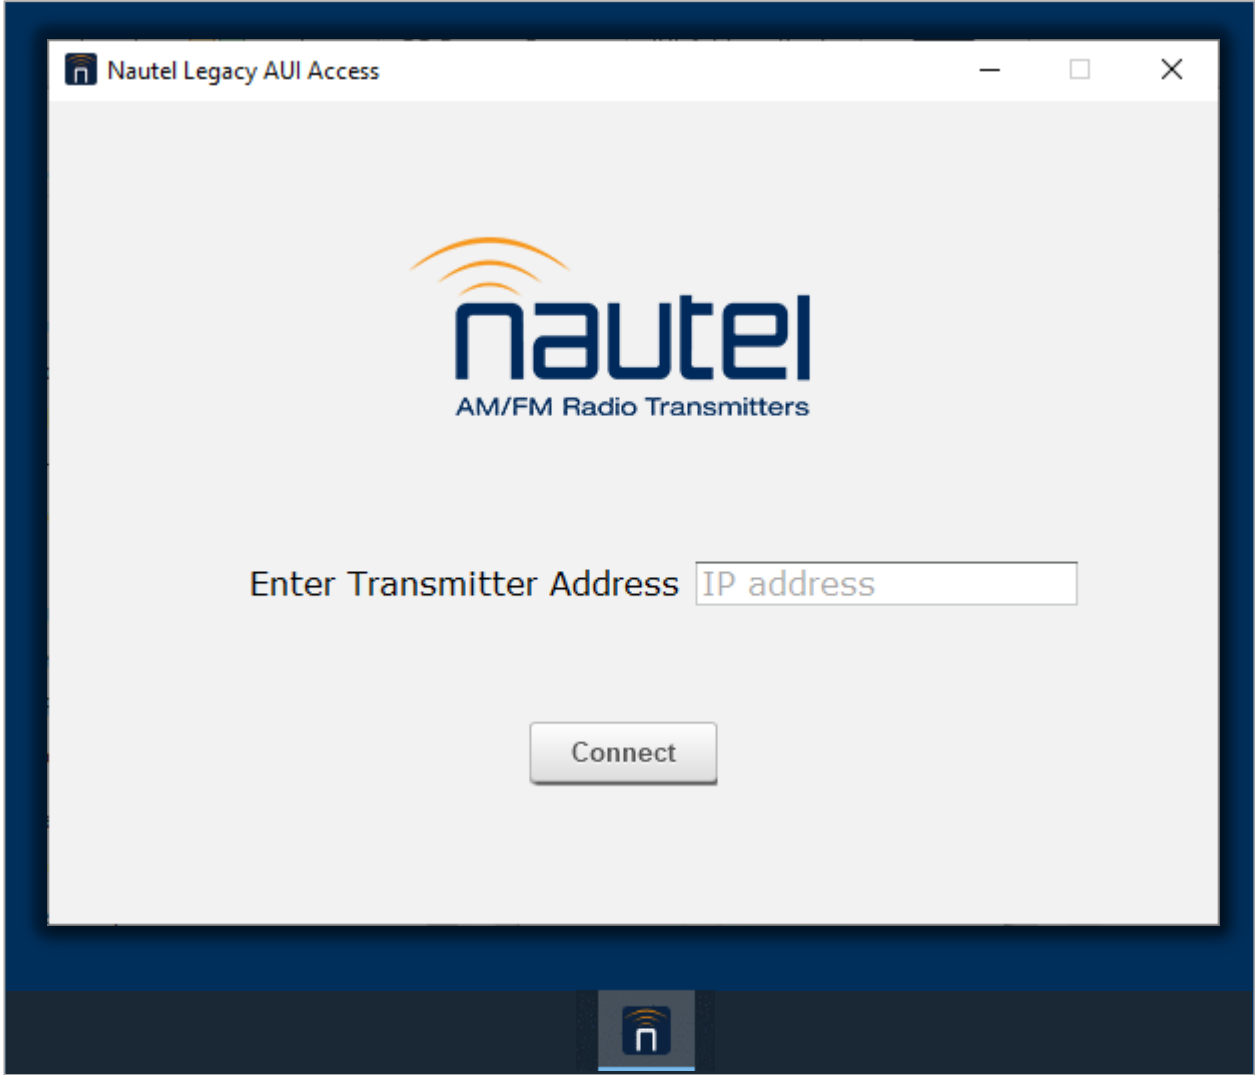

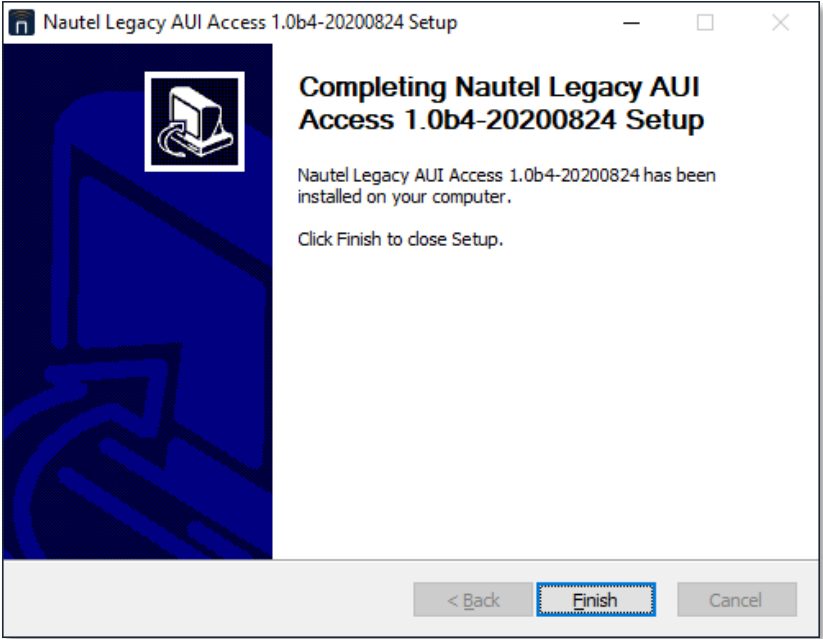

Install Flash Player
