TALK
TUESDAY

Your questions please?

(if you don't see the control panel, click on the orange arrow icon to expand it)

Please enter your questions in the text box of the webinar control panel (remember to press send)

The screenshot shows a GoToWebinar control panel window. At the top, there is a menu bar with 'File', 'View', and 'Help'. Below the menu bar is a vertical sidebar with several icons: a blue square, a blue square with a white square inside, a green hand icon, and a blue square with a white square inside. An orange arrow icon is highlighted with a dashed orange circle, and a dotted orange line points from it to the 'Audio' section. The 'Audio' section has a title bar 'Audio' and a menu icon. It contains 'Audio Mode' with two radio buttons: 'Use Telephone' (unselected) and 'Use Mic & Speakers' (selected). Below this is a 'MUTED' status indicator with a microphone icon and a volume level indicator showing 00. A link for 'Audio Setup' is visible. Below the audio section is a 'Questions' section with a title bar 'Questions' and a menu icon. It contains a large text input area with a placeholder text '[Enter a question for staff]'. A red oval highlights this text box, and a solid red arrow points from the text 'Please enter your questions in the text box of the webinar control panel' to it. A 'Send' button is located at the bottom right of the 'Questions' section. At the bottom of the window, there is a promotional banner for 'GoToWebinar' with the text 'Start Holding your Own Web Events with GoToWebinar' and 'Webinar ID: 977-124-241'.

Remember: The completion of a Nautel webinar qualifies for $\frac{1}{2}$ SBE re-certification credit, identified under Category I of the Re-certification Schedule for SBE Certifications.

Subject: RE: Contact corrosion cleaner

Hi Kevin,

This worked out great, we ended up using the cleaner in a couple applications. Thanks for the suggestion!

War Stories!

Grounding

Radio Station Temporary

- Sometimes you do what you gotta do – this was holding the ball gap on, which was better than nothing and had just recently happened.

Groundskeeping?

- Some sites resist being visited.
- No Admittance?
No problem!

War Stories

- No, seriously... Cameras are handy!

JEFF'S TOP TIP FOR TODAY...

Have a call-out plan

If you have to be at the site alone, schedule regular calls to check in.

support.nautel.com/tips-n-tricks

One time, the wife insisted on going to a site with one of my higher powered transmitters after a thunderstorm so I wouldn't be alone. Until a surprise storm developed and passed over the site with her there. Now she just says "call me".
