

USER REPORT

With help from generous donors KSWP/KAVX in Lufkin, Texas now has its most reliable signal in 35 years, plus reliability, ease of maintenance and utility savings.

Chief Engineer, Tim Swanson, loves how quiet his Nautels are plus they run so much cooler "I'm certain our utility bill is going to be much lower because the transmitter building stays cool with only one HVAC."

IT SECURITY

At the Transmitter and Beyond

IT security affects every aspect of your station's operation – from the sales department to traffic/billing, programming, remotes, your signal transport, and the transmitter. Luckily, there are some basic things you and the rest of your station's staff can do to stay reasonably safe. Jeff Welton outlines seven of the most critical steps you can implement in this Radio Guide cover article.
