

VX Series

150 W to 6 kW FM Analog Transmitters

nautel IBC 2022 GUIDE 8.C71

11 NEW Nautel Transmitters

- More power choices to fit your needs
- AUI: Secure, HTML5 Tx Control
- Instrumentation, RDS, SNMP, Presets
- PhoneHome for enhanced service
- Modular 3-6 kW for easy service & low weight
- 100% North American: Design, Build, #1 Support
- Rigorous testing and quality assurance
- Long service-life design
- LPFM certified models
- 4 year warranty

Compact • Efficient • Affordable

Nautel By The Numbers

- #1** One of the world's largest manufacturers of Radio Broadcast transmitters
- Five Decades** of consistent, engaged, ownership
- 53 Years** of innovation and exceptional customer support

- 32+** MW of NX Series power deployed
- 11,000+** transmitters shipped supporting Nautel's AUI
- 1000+** High Power FM sites have converted to Nautel in the last decade

1

VX Series

150 W to 6 kW FM Analog Transmitters

NEW!

VX Series

Introducing 11 NEW analog FM transmitters with outputs of 150 W to 6 kW. The VX Series offers advanced control and instrumentation in a compact footprint with state-of-the-art DSP, power supply, and FET technology.

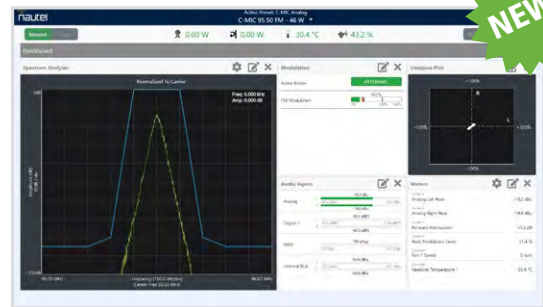

NEW!

2

AUI: Advanced User Interface

This year Nautel launches a totally rewritten AUI with an all-new operating system and architecture that will be standard on all new Nautel transmitters.

NEW!

3

Digidia SpanFM and SyncFM

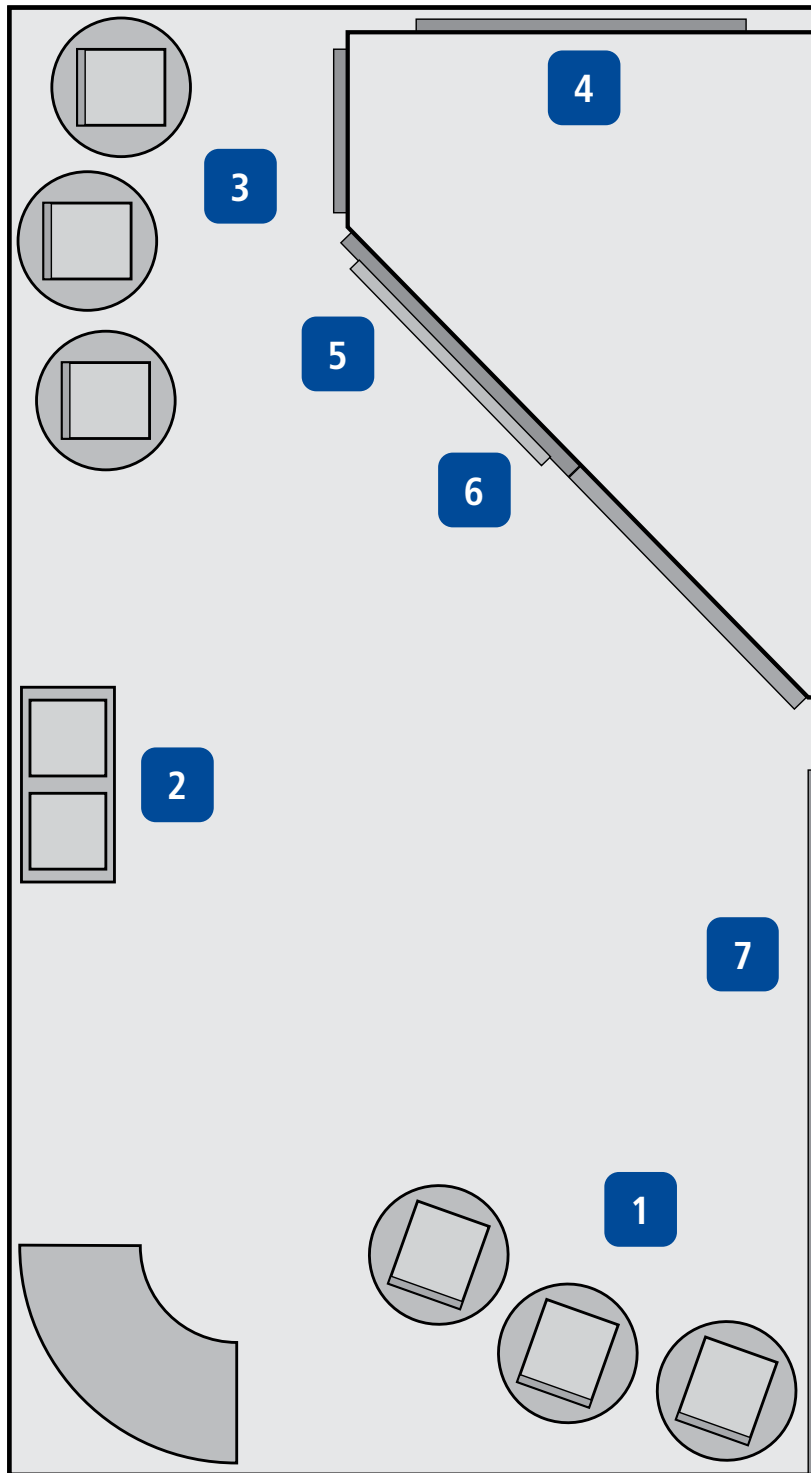

Perfect synchronous FM. Field proven: successfully deployed in France (over 200 sites) and Japan (over 50 sites).

NEW!

Booth Guide: 8.C71

SUPPORT MATTERS

Great support means finding the right support person at the right time

4

NX Series

The NX Series of AM transmitters offer outstanding linearity for digital broadcasting. All NX transmitters are factory configured for Modulation Dependent Carrier Levels. Learn more about how MDCL can lower your operating costs.

5

Nautel by the Numbers

Over 19,000 Nautel transmitters are deployed in 177 countries across the globe

6

NVLT Series

NVLT Series transmitters are affordable transmitters for analog/digital FM broadcasting. Based on a proven architecture, they're built tough with, parallel power amplifiers, parallel power modules and hot-swap power supplies.

7

GV Series

Engineered using Nautel's field-proven Binary-combined high-power architecture, GV transmitters offer the industry's highest digital power outputs, commercial-grade instrumentation, advanced intelligent features, and award-winning control via Nautel's AUI. 3.5 kW – 80 kW FM.
